

CLINICAL PERFUSIONIST

A Unique Position with Work Life Balance

Location: MELBOURNE, AUS

We have a unique opportunity for a Perfusionist to join our team under a well remunerated, lifestyle friendly, flexible agreement. The successful applicant must be available full time, however attendance at the hospital will only be necessary when clinically required.

Applicants must be certified by the Australian and New Zealand College of Perfusion (ANZCP) and will ideally have experience in adult perfusion. It is essential that applicants are familiar with Stockert S5 Heart Lung Machines, perioperative autotransfusion, intra-aortic balloon pump counter pulsation, venous-venous extracorporeal membrane oxygenation (VV ECMO) and venous-arterial extracorporeal membrane oxygenation (VA ECMO).

Experience with electronic data management systems (DMS) and the Perfusion Down Under (PDU) Database is desirable but not essential.

The successful applicant will be rewarded with an attractive remuneration package, flexible working arrangements and professional development opportunities.

All applications will be treated as strictly confidential.

Please forward written applications with full resume' and references to:
