### **About the Company**

St Vincent's Hospital Melbourne (SVHM) is part of St Vincent's Health Australia and a leading teaching, research and tertiary health service which employs more than 5,000 staff across 18 sites throughout Melbourne. SVHM provides a diverse range of adult clinical services including acute medical and surgical services, sub-acute care, medical diagnostics, rehabilitation, allied health, mental health, palliative care, correctional health and community residential care. SVHM is one of Australia's leading Catholic not-for-profit healthcare providers.

### **About the Department**

St Vincent's Operating Suite currently houses 12 theatres, 12 anaesthetic rooms and a Post Anaesthetic Care Area. Working alongside the Sterile Processing Centre, Day Procedures and Endoscopy Centres the department undertakes over 10,000 procedures per year in a vast range of highly specialised and complex specialities over a 24 hour period, 7 days per week.

### **About the role**

A rare opportunity has arisen for an experienced Perfusionist to join our dynamic and supportive Perioperative Suite on full time fixed term basis. Working as part of a small team, you will be responsible for perfusion and associated services to cardiac surgery and other disciplines as required.

### **Duties**

- Provide the full range of Clinical Perfusion services to cardiac surgery and other disciplines as required including but not limited to the use of Multiple Heart Lung Machines, Varied Primes and knowledge of Paediatric Perfusion
- Demonstrate clinical expertise in the area of clinical perfusion
- Initiate, facilitate and evaluate clinical practice needs for individual staff, and implement appropriate educational sessions
- Liaise with the Chief Clinical Perfusionist to meet activity targets as identified within the Unit Quality Plan and agreed to by the Clinical Directors
- Act as a clinical role model and resource person by providing the highest standard of direct patient care.

### **Skills, Experience & Qualifications**

- Bachelor Degree in Science or Applied Science or equivalent
- Diploma in Clinical Perfusion
- Certification in Clinical Perfusion with the Australian and New Zealand College of Perfusionists
- Previous experience as a Clinical Perfusionist
- Highly effective communication skills
- The ability to work autonomously while being a team player

### **Benefits**

- Salary packaging
- Employee Assistance Program
- Staff Health Centre
- Staff Car Park
