

AmSECT LEADERSHIP SYMPOSIUM 2021

Dear Colleagues,

AmSECT has been running a Leadership Symposium since 2017. In that year it occurred the day before AmSECT's 2017 Best Practices Meeting held in Portland Oregon. Since then it has been held prior to AmSECT's International Meeting. In 2021 it is being held as a virtual symposium, and on behalf of our membership we asked if the organisers of the course would extend the invitation to apply for the Symposium to members of the ANZCP.

This request was met very positively and we are now sharing the invitation posted to AmSECT's membership to participate in the Symposium. I have participated in the previous three Symposium's that have been held and have found them to be enjoyable, educational and very valuable as well, I would recommend them to all.

The closing date is the 23rd of October and a structured application is required. Please note on your application that you are an ANZCP Member. If you want to ask any questions about the program there is more information on the AmSECT website <https://www.amsect.org/page/2021-leadership-symposium>. If you have trouble meeting this deadline for applications, please let us know by emailing admin@anzcp.org.

A handwritten signature in black ink that reads "Rob Baker". The signature is written in a cursive style with a horizontal line underneath the name.

Professor Robert A Baker, PhD, CCP (Aust)

President

Australian and New Zealand College of Perfusion
