

## **Clinical Perfusionist, Sydney (“Sign on” bonus and fully supported relocation available)**

Australian Blood Management

Warm, outgoing, authentic, passionate and inspiring but worn down by the confines of being employed by an institution? Maybe an onerous on call has you questioning the meaning of “work/life balance”. Of course you are happy, but could you be happier? If this sounds like you, please get in touch.

Don’t ignore this opportunity. What have you got to lose? Worst case, you find out more about us and how we do what we do, we catch up, find out you are a perfect fit but you don’t take our offer. But sometimes it’s time to move on and we encourage it too.

If you are amazing, then we will find a way to make things work for you. Opportunities exist to live and work in Sydney but also NSW Central Coast and the Illawarra District.

This link will take you to a pretty average seek ad <https://www.seek.com.au/job/54486956> or please email Hayden ([hayden@ausbm.net](mailto:hayden@ausbm.net)) for further information.
