

Patrick O'Neill

I am currently a Perfusionist with Perfusion Services Pty Ltd providing perfusion at Monash Medical Centre and Cabrini Hospital in Melbourne.

Obtaining my CCP in 1999, I have worked in numerous units across Melbourne and interstate, including Townsville, Hobart and the ACT. I have a particular interest in clinical training having formally and informally supervised many trainees.

Joining the ANZBP in 2021, I look forward to contributing to the transition to the MSc in Perfusion course at MUSC, and beyond that to hopefully one day setting up a similar program for Australia/New Zealand.

When not at work, I am busy chasing up my 4 children who are spread around the country, surfing when I can and tending to my beehives.
