

# Professional Indemnity Insurance

## AUSTRALIAN AND NEW ZEALAND COLLEGE OF PERFUSIONISTS Professional Indemnity Insurance

The Australian and New Zealand College of Perfusionists (ANZCP) understands the importance of ensuring that its members who work full or part time in a public hospital and/or in private practice have the necessary professional indemnity insurance.

Membership of some industry unions may offer a level of insurance, but this may not be sufficient to cover all costs. If you are a member of a union please check your membership policy.

For example the Medical Scientist Association of Victoria provides indemnity insurance for members through the HSU (Health Services Union).

Insurance Companies or Brokers offer a choice of \$2m, \$5m, \$10m or \$20m cover for professional indemnity insurance. ANZCP is not affiliated with any major insurance company and has listed a few examples of companies that offer professional indemnity insurance to health professionals.
