Tobias Merz, trained in Internal Medicine and Intensive Care in Switzerland and Sydney, Australia.

Tobias worked as a senior consultant in the Department of Intensive Care Medicine, University Hospital of Bern, Switzerland (large 60 bed tertiary centre) from 2004 through to 2018. Having moved to Auckland with family in 2018, he has been working in the Cardiovascular Intensive Care Unit of Auckland City hospital as Senior Medical Officer since.

Mr Merz's main research area of interest is use of machine learning and AI to develop ICU monitoring systems.
