Te Pae Convention Centre
Christchurch, New Zealand

Visit: www.anzcp.org

Professor Rob Baker is the Director of Cardiothoracic Surgery Research, Quality and Outcomes at Flinders Medical Center and Flinders University in Adelaide, South Australia,.

Rob works as part of the Flinders team dedicated to improving patient outcomes through better clinical and perfusion practises. His major areas of interest include the development of registries, evidence-based practices, standards and guidelines, benchmarking cardiopulmonary bypass, blood management, acute kidney injury and cardiac surgery outcomes.

Rob established and Chairs the Australian and New Zealand Collaborative Perfusion Registry, and was co-chair of the multidisciplinary STS/SCA/AmSECT Perfusion Task Force Guideline papers for clinical practice.
